461. Barite – The Gangue’s All Here. 30 minutes. By Larry Havens. Using his competitive barite exhibit as a starting point, Larry shares what he learned about this essential mineral: not only a selection of specimens from across this country and around the world with it’s varied crystal habits, but also other essential information with a dash of humor (note the title). AFMS contest winner 2009

462. Virgin Valley Opals! 4 minutes. By Nickolas Riebeek. After a family trip to Virgin Valley, Nevada, Nick prepared this presentation for his fellow junior club members showing what he had seen, learned, and found at this classic location. Although it is very brief, adults will also appreciate the geology, how opals are collected, and some specimens found there. Can be ordered with any other program, no extra cost. AFMS contest winner junior division 2009.

463. Romania’s Mines and Minerals. 30 minutes. By Michael Shaw. Although Romanian minerals are not commonly available in the U.S., many world-class specimens including some rare varieties have been produced during its long mining history. Some historical background, location maps, images depicting Romania’s mineral diversity, and views of mines round out this presentation. AFMS contest winner 2009

464. USGS: Not Just Rocks. Earth Science Careers. Good information. Gift from AFMS Endowment Fund 2009.

465. Sea Monsters. A Prehistoric Adventure. 40 minutes. Journey back in time to watch dinosaurs swim, hunt and fight for survival. National Geographic program. Gift from AFMS Endowment Fund 2010.

466. Oklahoma Rocks! 58 minutes plus extra special features. Join geologist Devin Dennie on a journey across Oklahoma and learn about the geological history of the 46th state that is told through its sand, stone and soil!. AFMS “Excellence in Education” Award Winner 2009.
