604. Those Fabulous Thunder Eggs - Part 2. Oregon. (Power Point). by Doug Moore and Lee Kabat. Since Part I (produced last year) covered thunderegg locations "around the world", Part II concentrates on Oregon. Typical as well as a few unusual specimens from current and closed locations show the diversity of "eggs" found in the state, with one site in Washington for good measure. The geology, how to cut eggs, and some of the history are also included. AFMS Winner 2005 Contest Same as 401 and 964.

605. Sedimentary and Vein Agates. (Power Point). 46 minutes. By Doug Moore. Did you know most agates formed in volcanic rocks? Can you recognize varieties that developed in sedimentary environments? What is the general geology and specific characteristics of different varieties? To answer these and other questions, Doug presents outstanding pictures and interesting narration exploring these agates from notable locations in the U.S. and around the world. 2005 AFMS Contest winner 2005 AFMS Winner. Same as 182, 402 and 966.
